Crossing Cultures: Five Simple Steps to Improve Health by Improving Communication

**Organization:** HealthPartners Center for International Health

**Published Date:** 2008

In this 13 minute video Dr. Pat Walker shows how to improve care to patients from around the world. Through actual in-clinic interactions with patients from Ethiopia, Sudan, Cambodia, Laos, and Russia, Dr. Walker, Rob Carlson PA-C and Carlos Franco MD demonstrate how to apply a simple method to improve any cross-cultural encounter, called the LEARN model. Training tools are included in the DVD and can be used as an easy and effective method to improve health communication.

**Topic Areas:** Continuing Education [2], Cultural Competence Training [3]

**Resource Type:** Video/DVD [4], Training & Education [5]
